CHEMISTRY / IGCSE

11.1 Formulae and functional groups

Medium 1 / Original practice worksheet

Name: _____ Date: _____

1 Describe two features shared by members of a homologous series.

(Total for question 1 is 2 marks)

2 An alkane contains six carbon atoms. Use its general formula to determine its molecular formula. Show your working.

(Total for question 2 is 2 marks)

11.1 Formulae and functional groups

Medium 1 / Original practice worksheet

Name: _____ Date: _____

3 Draw the displayed formula of ethene, C2H4.

(Total for question 3 is 2 marks)

4 Explain why ethene is described as unsaturated.

(Total for question 4 is 2 marks)
